GEISTER

The better way

Modified Ankeney-type Sternal Retractor

Clean solutions:

One of the most popular large sternal retractors for full sternotomy has been further advanced with quick-removable and exchangeable suture organizing springs to meet the requirements of modern CSSD units.

Modified Ankeney-type Sternal Retractor self-retaining with rack and pinion action. Complete with six detachable swivel blades, and one pair of quick-removable springs on each arm. One pack of replacement springs 29-1300.FE included.
